

Kyoichi Jim KIJIMA

Kyoichi Kijima is a professor of Decision Systems Science at the Tokyo Institute of Technology.

Kijima's research interests are in systems-science-based approach to decision making and information. He has proposed a new paradigm called "poly-agent systems," which tries to deal with the complexity involved in decision-making situations with plural and autonomous decision makers. He is also interested in integrating hard and soft systems approaches to decision-making and management.

Kijima has authored some books and has published more than fifty papers in international journals. In 2006 he received a grant from the Japanese government on agent-based modelling and systems research.
